

APEX
X2

**THE NEXT GENERATION OF
INDUSTRIAL HEAD
PROTECTION**

zeroheightsafety.com

ZERO®

WE INNOVATE BECAUSE YOU NEED EQUIPMENT TO MATCH YOUR PERFORMANCE.

ZERO® helmets are so comfortable they allow you to do your best. The only helmet you'll need to get the job done and customised to fit your unique style, needs and specifications no matter what the task requires.

ZERO® helmets are the outcome of over 25 years experience in height safety and fall protection. We know what it takes to work at heights, to minimise the impact of falls and enable our customers to do their best work.

Protection that's priceless

THE ZERO APEX X2. WITHOUT QUESTION

Built tough with fast-fit interconnecting PPE and all-day comfort, it is made for construction professionals working on the most demanding worksites.

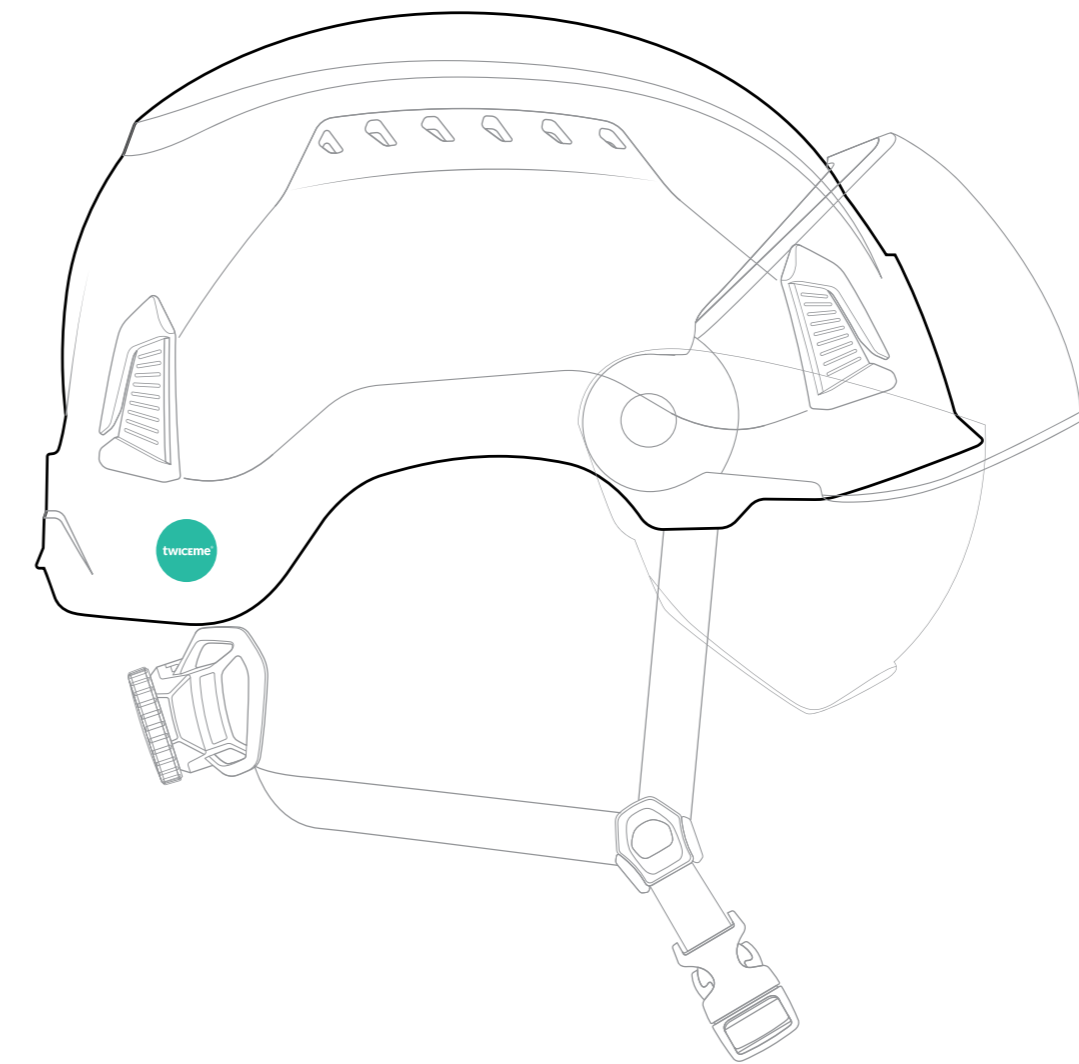

FRONT ADJUSTABLE HEADBAND

4-POINT FRONT ADJUSTMENT

DESIGNED FOR COMFORT

The X2 has a durable lightweight vented shell, which allows air to flow through the helmet while the front side and rear adjustable padded headband delivers a personalised fit for a helmet that stays comfortable and secure.

TWICEME DIGITAL SAFETY PLATFORM

SCANNABLE NFC "HELP THE HELPER" DIGITAL IDENTIFICATION

We are making the Apex X2 smarter by integrating technology that transforms in into a digital safety platform, giving workers instant access to critical information and enabling smarter equipment management on site.

twiceme®

Twiceme enables faster emergency response, more effective communication, and enhanced information sharing by giving users instant access to Medical ID, work documents, and inspection information.

Twiceme's app also offers features such as Immobility Alert, Share Location, and Get Back Timer. Helping workers stay connected, reduce risk when working alone, and get help faster in an emergency.

SAFETY MANAGEMENT PORTAL (SMP)

The Safety Management Portal (SMP) helps you stay audit-ready. Track helmet inspections, manage Medical IDs, and monitor training certifications, all in one intuitive platform.

APP FEATURE SUITE

- ✔ Work documents
- ✔ Medical ID
- ✔ Routine inspection
- ✔ Immobility alert
- ✔ Share location
- ✔ Get back timer
